COMPLETE BAR MANAGEMENT

Digitot™

The Complete Solution

Maximise profits and minimise shrinkage!

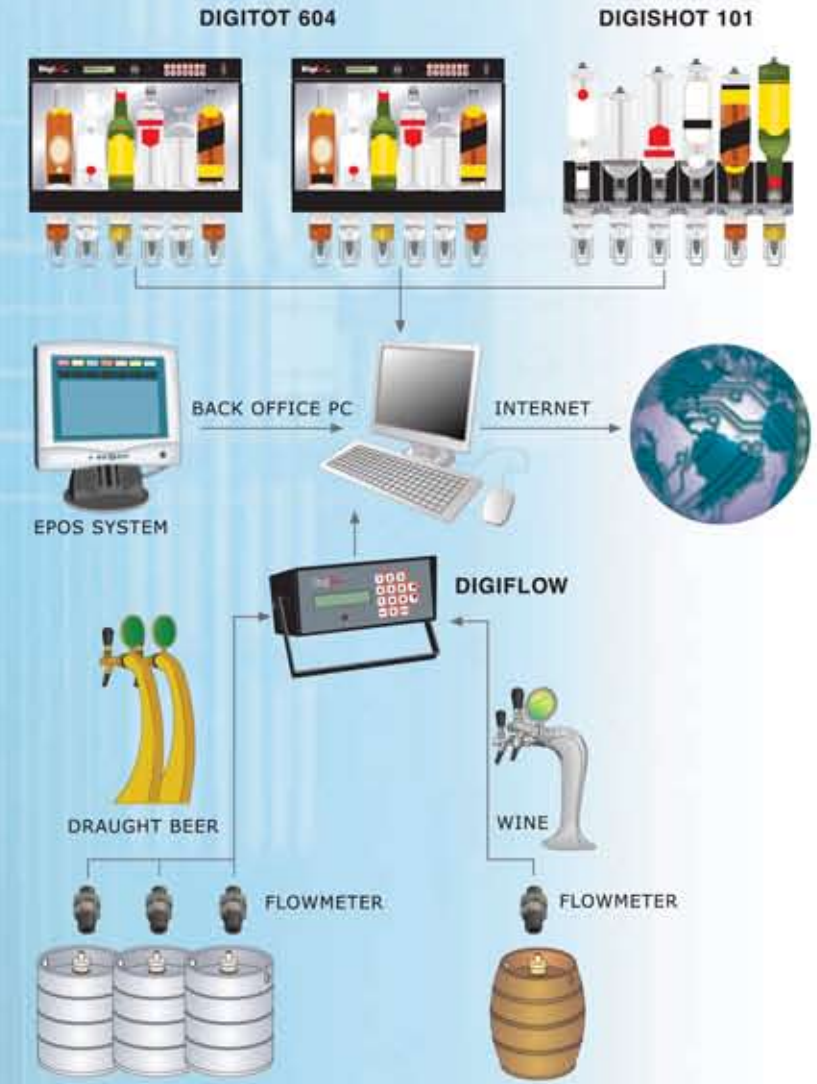

Are all the sales in your bar being rung up and are you earning the right margins?

Take the guesswork out of your business. Take control with the Digitot bar management system.

- Robust and reliable dispensing and measuring equipment for spirits, liquor, draught beer and soft drinks.
- Reconciliation of drinks dispensed with point-of-sale system.
- Accurate real time stock counts and control for all bar stock items.
- Increased staff accountability.
- Improved profitability.

Digitot enables you to know when stock was lost, what was lost, how much was lost and who was responsible.

Seamless integration with your point-of-sale system provides top quality, immediately actionable information, enabling you to manage your sales and profit margins better.

Software

Inventory and product dispensed information stored on the machines is communicated on a real-time basis to the Digitot back office software. This enables inventory to be managed and reports outlet activities for a selected period (i.e. shift/day/week/month/year).

COST EFFECTIVE • ACCURATE • RELIABLE
