

RADIANT P1515 POINT-OF-SALE TERMINAL FOR THE HOSPITALITY INDUSTRY

The Radiant P1515 point-of-sale (POS) terminal provides an exceptional combination of performance, reliability, flexibility and low total cost of ownership in a compact package that fits virtually anywhere in any type of food service location. With a very bright 15-inch touch screen display, the P1515 maximizes speed of service with fast order entry in brightly-lit front counter or drive-thru installations. The P1515's silent operation ensures that dining room installations can be close to where servers work, improving guest service without affecting décor or atmosphere. While small in size and a value-priced terminal, the P1515 is big on durability and features designed to maximize value in food service locations.

▶ SERVE CUSTOMERS FASTER

Serve customers faster and more accurately with a value-priced POS terminal that stands out by combining small size with high power. Using the cutting-edge Intel® Atom chipset technology, a bright display and very fast sign-on options, the P1515 combines speed for your customers with ease of use for your staff.

▶ INSTALL IT ANYWHERE

Put your investment where your staff and customers are to maximize productivity and service. The P1515 is tough enough to go where you need to put it, with a rugged enclosure and electronics that can withstand spills without interrupting service.

▶ CONNECT IT TO EVERYTHING

With connections for up to ten peripherals and different customer display options, the Radiant P1515 can connect directly to all the retail devices you need to serve your customers quickly.

▶ REDUCE YOUR COSTS

Eliminate technology-related service interruptions. The Radiant P1515 POS is built for non-stop sales reliability, rapid installation and fast return-to-service. Designed with the challenging food service environment in mind, the P1515 is completely fanless, which translates into better performance, lower power consumption and higher reliability.

RADIANT P1515 POS TERMINAL

The Radiant PI515 POS terminal provides a truly unique combination of unmatched value and configuration flexibility that can meet the needs of almost any operation. With fanless cooling technology and a rugged design specifically created for the food service industry, the PI515 can be used virtually anywhere in your operation. Choose the PI515 for a fast, bright, cool, quiet, tough and well-connected POS terminal with higher uptime, longer life and the best service options available anywhere. In addition, the Intel® Atom chipset technology and environmentally-friendly components in Radiant hardware combine to reduce power usage and support green initiatives.
